KEY RATIOS

CEO'S COMMENTS

"I'M PLEASED WITH THE STRIDES WE'VE BEEN MAKING TO FURTHER INCREASE GROWTH AND HOW WE'VE BECOME A MORE EFFICIENT AND PROFITABLE SCANDIC. DEMAND IS GOOD AND WE'RE PACING TOWARDS ANOTHER STRONG FULL YEAR."

We have delivered another record-breaking quarter and Scandic is standing stronger than ever. Scandic is continuing to make progress in increasing growth and has gradually become a more efficient and profitable company. With strong cash flows and historically low indebtedness, we are maintaining a high pace in developing Scandic to leverage all opportunities to further consolidate our leading position in the Nordics.

Bookings from leisure travelers were high during the summer and the important season for corporate guests and meetings has gotten off to a good start. The hotel market is demonstrating resilience against high inflation and interest rates, and hotel stays, and travel continue to be prioritized both for business and pleasure. Both the number of room nights sold, and occupancy rate increased while prices continued to develop positively. This resulted in Scandic's highest RevPAR ever and net sales reached an all-time high level of 6.3 billion SEK. Room revenue is developing positively, and, in our F&B business, we have improved profitability by continuing to optimize pricing, purchasing and efficiency. Adjusted EBITDA was 1,173 million SEK, corresponding to a margin of 18.6 percent. Excluding nonrecurring items, this is our best adjusted operating profit ever. With a strong financial position, we are continuing to invest in developing Scandic.

We are now focused on growing our hotel portfolio with a stronger organization and intensified cooperation with property owners. During the quarter, we signed an agreement to open a Scandic hotel and a Scandic Go with a total of 459 rooms in the Garden Helsinki multifunctional event arena in Helsinki, Finland. The hotels are expected to open in 2028 and will be a milestone in our growth strategy for the Helsinki region. To capture the growing demand within the upscale segment, we expanded our Signature Collection by adding two hotels in Norway and Denmark, which were already part of our pipeline. At the beginning of July, we signed an agreement for a new Scandic Go with 221 rooms at Fridhemsplan in Stockholm. We also opened our first Scandic Go in Stockholm with great success and interest from guests and property owners. This creates good conditions for our growth ambitions in the economy segment.

We are also working at full speed to implement the complete cloud-based IT solution Oracle Hospitality OPERA Cloud. Using a shared cloud-based platform will create a new common way of working for Scandic and connect all hotels and central functions. Implementing the platform will enable an even better guest experience and higher efficiency through, for example, better management, booking and pricing. Investing in our digital development is an investment in the future where we see excellent opportunities over time to exploit more economies of scale and increase our growth and profitability. Preparations for the implementation started last year with the ambition to implement and use the solution at all hotels and in most central functions during the first half of 2024.

I am proud to report a strong quarter for Scandic and that our focus on efficiency is delivering results. Demand from business travelers and meetings is good, and we are on track for another strong full year. For the fourth quarter, we expect occupancy at par with the same period last year at a higher average price per room.

Scandic is stronger than ever, and I am looking confidently into the future as we continue to work to create even higher guest satisfaction, growth and profitability. Again, a big thank you to all our guests and team members who have made this possible.

JENS MATHIESEN President & CEO

NORDIC HOTEL MARKET

Historically, demand in the Nordic hotel market has grown steadily. Between 2009 and 2019, the number of sold rooms increased on average by 4 percent per year driven by growth in leisure travel and a greater number of international visitors. The Nordic hotel market has recovered rapidly since the second quarter 2022, and in the past 12 months, the number of sold rooms has increased by 12 percent compared to 2019.

STABLE OCCUPANCY RATES

Demand in the hotel market in the Nordic countries remained good and the occupancy rate for the third quarter was at the same level as in 2022.

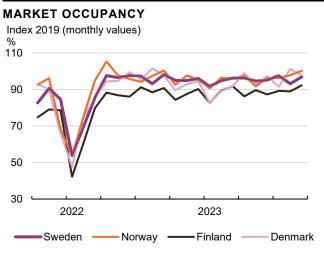

For the quarter, occupancy was between 64 and 83 percent in the Nordic countries.

Occupancy was highest in August and lowest in July. In July, the average occupancy rate in the Nordic markets was between 64 and 73 percent. The occupancy rate in August was between 64 and 83 percent and in September, it was between 64 and 79 percent.

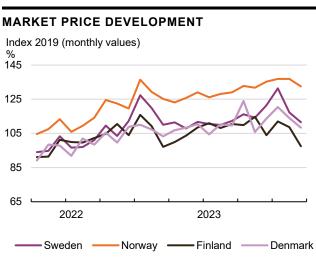

POSITIVE PRICE DEVELOPMENT

Compared with the third quarter 2022, average room rates grew 4 percent in the Nordic markets. Room rates went up most in Denmark, where they increased by 7 percent and in Norway, where the increase was 5 percent. In Sweden, room rates rose by 1 percent. In Finland, there was a decrease of -1 percent.

Compared with the third quarter 2019, average room rates rose by 23 percent. The greatest increase was in Norway, where room rates jumped 37 percent followed by Sweden, where rates were 19 percent higher. In Denmark and Finland, room rates rose 14 and 6 percent, respectively.

OPERATING MODEL & HOTEL PORTFOLIO

SCANDIC'S OPERATING MODEL

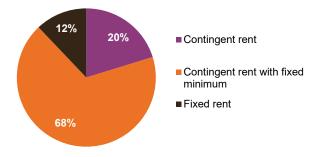

Scandic operates according to a model with long-term lease agreements with full responsibility for the brand, hotel operations and distribution. This is the dominant model in the Nordic markets and in Germany. In many other countries, the franchise model where the hotel company controls only the brand while operations are run by a specialized management company, or the property owner is more common. And some hotel companies have a fully integrated model where the property owner is also responsible for operations as well as the offering and brand.

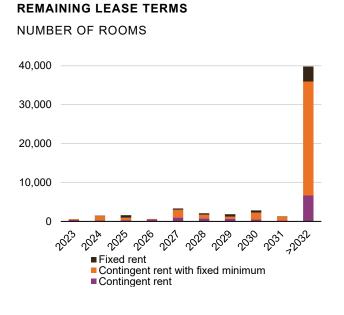

The leasing model helps Scandic ensure that its hotel offering is in line with what it markets while it can benefit from economies of scale in operations and distribution. Additionally, the team members who meet Scandic's guests are employed by Scandic.

HOTEL PORTFOLIO

Scandic operates hotels with long-term leases that are usually variable based on hotel revenues. This creates a shared interest for both parties since increasing sales means higher rents and greater property value for landlords. Variable rents ensure a relatively flexible cost structure, which helps stabilize margins. Scandic aims to increase the share of variable lease agreements and achieve more balanced conditions over time. Responsibility for investments is clearly regulated in Scandic's lease agreements. In general, Scandic is responsible for finishes, furniture, fixtures and equipment while the property owner is responsible for the building as well as technical installations and bathrooms.

At the end of the period, Scandic had 55,969 hotel rooms in operation at 269 hotels, of which 248 had lease agreements. In total, the number of rooms in operation increased by 39 during the period. The opening of Scandic Go on Upplandsgatan in Stockholm contributed with 124 rooms. Scandic Grimstad had a negative impact of 98 rooms when the hotel was exited in August.

SCANDIC'S PIPELINE

Scandic constantly evaluates investments in new and existing hotels to determine which hotels, if any, should be exited to optimize returns, capital efficiency and quest satisfaction. Developing and managing the hotel portfolio is central for Scandic to grow in and outside of the Nordic region. Scandic's pipeline includes only hotels with signed lease agreements.

At the end of the period, Scandic had eight new planned hotels with 2,252 rooms and five planned exits that constitute a total of 753 rooms. This corresponds to a net increase of approximately 2.7 percent of the hotel portfolio. During the quarter, Scandic announced an agreement for a new 221-room Scandic Go in Stockholm and an agreement for two new hotels in Helsinki with a total of 459 rooms. Scandic also announced that the Signature Collection would be expanded with the addition of two new hotels. Both hotels are already part of Scandic's pipeline. Investments in the pipeline are expected to total approximately 506 million SEK. To date, investments of 28 million SEK have been made.

GROUP DEVELOPMENT

IFRS 16 Leases has a significant impact on Scandic's income statement and balance sheet, as Scandic has a business model with long-term lease agreements. To help all investors gain a good understanding of the company's position, Scandic has chosen to present the company's financial results and financial key ratios both including and excluding the effects of IFRS 16.

Scandic's financial targets for profitability, capital structure and dividends exclude the effect of IFRS 16. The results for each segment (i.e., country or group of countries) are presented excluding the effects of IFRS 16 in accordance with the way Scandic's Executive Committee and Board of Directors follow up on the company's results. For more information on IFRS 16 and its effects on Scandic's financial reporting, see pages 30-34.

JULY – SEPTEMBER 2023

Net sales rose by 5.2 percent to 6,307 million SEK (5,994). Exchange rate effects impacted net sales positively by 202 million SEK or 3.4 percent. The number of available rooms at the end of the quarter was marginally lower compared with the previous year.

Organic growth excluding exchange rate effects and acquisitions was 1.8 percent, and sales for comparable units grew by 1.0 percent.

Average revenue per available room (RevPAR) rose by 6.4 percent to 933 SEK compared with 875 SEK during the previous year. RevPAR improved in all markets compared with during the corresponding period in 2022. The average room rate continued to rise and amounted to 1,313 SEK; an increase of 5.7 percent compared with the third quarter 2022.

Revenue from restaurant and conference operations grew by 5.3 percent, and demand for meetings and conferences continued to be good after the summer. The share of net sales amounted to 24.9 percent (24.9).

REPORTED RESULTS

The operating profit was 1,251 million SEK (1,232). No preopening costs for new hotels were included in the operating profit for the quarter (-20). Depreciation and amortization totaled -970 million SEK (-849). This increase was impacted by additional depreciation and amortization of 115 million SEK due to IFRS 16.

The Group's net financial expense amounted to -510 million SEK (-436).

The profit before tax was 741 million SEK (796) and reported tax amounted to -182 million SEK (-163). Net profit was 559 million SEK (633).

Costs for central functions grew and amounted to -110 million SEK (-82), partly due to a high level of activity within digital development, increased marketing costs and measures to strengthen the organization within IT and marketing.

Earnings per share after dilution totaled 2.51 SEK per share (2.80). The calculation of earnings per share includes the full dilutive effect, as the profit for the quarter attributable to the Parent Company's shareholders was positive.

EXCLUDING EFFECTS OF IFRS 16

Rental costs rose to 1,764 million SEK (1,577). Rental costs relative to net sales increased and amounted to 27.9 percent (26.3). During the quarter, negotiated rent concessions of approximately 5 million SEK (12) were received, reducing fixed and guaranteed rents. Depreciation and amortization totaled -213 million SEK (-207).

Adjusted EBITDA was 1,173 million SEK (1,213). All markets reported positive adjusted EBITDA during the quarter. The new hotels that opened in 2022 have developed well, contributing positively to the Group's results.

Excluding direct state aid and non-recurring items, the adjusted EBITDA margin was 18.1 percent (19.0). During the quarter, Scandic Sweden received electricity subsidies and Scandic Norway was compensated for operations related to housing for refugees that was not used. Together, these items impacted adjusted EBITDA by approximately 31 million SEK (44). The comparative period includes compensation of 15 million SEK that was received in connection with opening

new hotels. Adjusted EBITDA does not include any direct state aid for fixed costs (32).

The Group's net financial expense amounted to -67 million SEK (-64). Interest expenses totaled -71 million SEK (-66); these expenses were impacted negatively by higher interest rates that were partially offset by lower indebtedness. The profit before tax was 894 million SEK (921) and the net profit was 683 million SEK (732). Earnings per share after dilution totaled 3.04 SEK (3.23) per share.

JANUARY – SEPTEMBER 2023

Net sales rose by 18.0 percent to 16,525 million SEK (14,002). Exchange rate effects impacted net sales positively by 374 million SEK or 2.7 percent. The number of available rooms at the end of the period was marginally lower compared with the previous year.

Organic growth excluding exchange rate effects and acquisitions was 15.4 percent, and sales for comparable units grew by 12.2 percent.

Average revenue per available room (RevPAR) rose by 17.6 percent to 797 SEK compared with 678 SEK during the previous year. RevPAR improved in all markets compared with during the corresponding period in 2022. The average room rate continued to rise and amounted to 1,273 SEK; an increase of 8.8 percent compared with the corresponding period last year.

Revenue from restaurant and conference operations grew by 20.6 percent due to the high demand for meetings and conferences in all markets. The share of net sales amounted to 27.6 percent (27.1).

REPORTED RESULTS

The operating profit was 2,283 million SEK (1,969). including pre-opening costs for new hotels of -16 million SEK (-122). Items affecting comparability amounted to -3 million SEK (0) related to costs associated with organizational changes. Depreciation and amortization totaled -2,850 million SEK (-2,494). This increase was impacted by additional depreciation and amortization of 152 million SEK due to IFRS 16.

The Group's net financial expense amounted to -1,535 million SEK (-1,369).

The profit before tax was 747 million SEK (600) and reported tax amounted to -219 million SEK (-173). Net profit was 528 million SEK (426).

Costs for central functions increased and totaled -328 million SEK (-184), partly due to higher marketing costs and

measures to strengthen the organization within IT and marketing.

Earnings per share after dilution totaled 2.58 SEK per share (2.12). The calculation of earnings per share includes the full dilutive effect, as the profit for the period attributable to the Parent Company's shareholders was positive.

EXCLUDING EFFECTS OF IFRS 16

Rental costs rose to 4,739 million SEK (3,943). Rental costs relative to net sales fell because of higher sales and amounted to 28.6 percent (28.2). During the period, negotiated rent concessions of approximately 25 million SEK (76) were received, reducing fixed and guaranteed rents. Depreciation and amortization totaled -625 million SEK (-627).

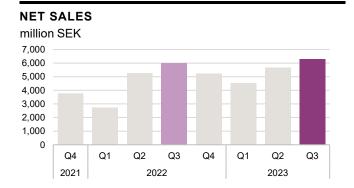

Adjusted EBITDA amounted to 2,115 million SEK (2,060), driven by higher net sales and efficient cost control. All markets reported positive adjusted EBITDA during the period. The new hotels that opened in 2022 and that are being ramped up continued to develop well, contributing positively to the Group's results.

Excluding direct state aid and non-recurring items, the adjusted EBITDA margin was 12.3 percent (11.7). During the period, adjusted EBITDA was impacted by non-recurring items of 92 million SEK (245), which can be divided into 49 million SEK (167) in compensation for operations related to housing for refugees that was not used, 20 million SEK in electricity subsidies in Sweden and 23 million SEK (79) that was received in connection with opening new hotels. Adjusted EBITDA does not include any direct state aid for fixed costs (189).

The Group's net financial expense amounted to -230 million SEK (-289). Interest expenses totaled -202 million SEK (-256); these expenses were impacted positively by lower indebtedness. The profit before tax was 1,243 million SEK (1,022) and the net profit was 927 million SEK (762). Earnings per share after dilution totaled 4.29 SEK (3.56) per share.

SEASONAL VARIATIONS

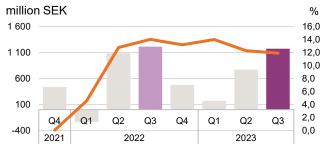

Scandic operates in a sector affected by seasonal variations. The first quarter and other periods with low levels of business travel such as the summer months, Easter and Christmas/New Year's are generally the weakest periods. Easter falls either during the first or second quarter, which should be taken into consideration when making comparisons between years. Just as in 2022 and 2019, in 2023, the Easter holiday fell during the second quarter.

CASH FLOW & FINANCIAL POSITION

CASH FLOW

The operating cash flow analysis below is based on adjusted EBITDA and excludes the effects of IFRS 16. The table below shows how interest-bearing net debt changed during the respective period. Excluding IFRS 16, operating cash flow for the period January-September amounted to 1,514 million SEK (1,810).

The cash flow contribution from the change in working capital totaled -465 million SEK (45). Working capital was negatively impacted by the previously communicated repayment of variable rent debts for 2022 of 715 million SEK. An additional approximately 25 million SEK is expected to be repaid during 2023. For 2023, a new rent debt of 400 million SEK has been accrued, the majority of which will be settled during the first half of 2024.

Taxes paid amounted to -94 million SEK (-36) and referred to payment of taxes for previous years primarily in Sweden and Norway.

Net investments paid totaled -309 million SEK (-552). Of these, -251 million SEK (-231) relates to ongoing hotel renovations at hotels in Stockholm, Umeå, Falun and Oslo among others and -33 million SEK (-10) to IT. Investments in new hotels and increased room capacity amounted to -25 million SEK (-311) and mainly relate to the completion of Scandic Frankfurt Hafenpark in Germany.

In total, free cash flow was 1,204 million SEK (1,257).

FINANCIAL POSITION

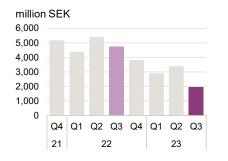

The balance sheet total on September 30, 2023, was 56,692 million SEK compared with 50,948 million SEK on December 31, 2022. The greatest change relates to an increase in lease debts and right of use assets according to IFRS 16, mainly attributable to index calculations in lease agreements and new contracts. Excluding IFRS 16, the balance sheet total amounted to 16,824 million SEK.

On September 30, 2023, interest-bearing net liabilities totaled 1,946 million SEK, a decrease of 963 million SEK compared with December 31, 2022. Debts to credit institutions totaled 977 million SEK, other interest-bearing liabilities totaled 797 million SEK and cash and cash equivalents totaled 1,438 million SEK. The convertible loan was 1,609 million SEK at the end of the period. Interest-bearing net debt in relation to adjusted EBITDA for the most recent 12 months amounted to 0.8x (0.1x excluding the convertible loan), which is lower than indebtedness at the end of 2022 (1.1) and less than at year-end 2019 (1.7).

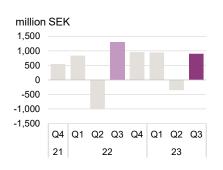

Total available credit facilities amounted to 3,250 million SEK at the end of the period. On February 15, 2023, Scandic signed an agreement for external financing with total credit facilities of 3,450 million SEK until December 31, 2025. In connection with the extension, interest terms and covenants were also adjusted. Under certain conditions, the external financing gives Scandic the opportunity to finance all or part of the convertible loan that is due on October 8, 2024. Total available liquidity at the end of 2022 amounted to approximately 3,600 million SEK.

Other interest-bearing liabilities of 797 million SEK include debt relating to deferred VAT payments and social security contributions in Sweden. The debt increased by a net of 162 million SEK during the period, partly due to new deferrals of 245 million SEK that were granted and repayment of -83 million SEK. Repayments are expected to be made until April 2027.

NOTES

NOTE 01. Accounting principles

The Group applies International Financial Reporting Standards, IFRS, as endorsed by the EU. This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Annual Accounts Act.

The accounting principles and methods of calculation applied in this report are the same as those used in the preparation of the Annual Report and consolidated financial statements for 2022 and are outlined in Note 1, Accounting principles.

The Parent Company applies the Annual Accounts Act and RFR 2, Accounting for legal entities. This means that IFRS is applied with certain exceptions and additions.

This interim report gives a true and fair view of the Parent Company and Group's operations, financial position and results of operations and also describes the significant risks and uncertainties to which the Parent Company and Group companies are exposed. All amounts are expressed in million SEK unless otherwise stated. Rounding differences may occur.

The information about the interim period on pages 1 to 39 is an integral part of these financial statements.

SIGNIFICANT RISKS AND UNCERTAINTY FACTORS

Scandic operates in a sector where demand for hotel nights and conferences is influenced by the underlying domestic development and purchasing power in the geographic markets in which Scandic does business as well as development in countries from which there is a significant amount of travel to Scandic's domestic markets. Additionally, profitability in the sector is impacted by changes in room capacity. Increased capacity can initially lower occupancy in the short term, but in the long term, it can help stimulate interest in business and leisure destinations, which in turn can increase the number of hotel nights.

Scandic's business model is based on lease agreements where approximately 90 percent of its hotels (based on number of rooms) have variable revenue-based rents. This results in a lower profit risk since revenue losses are partly offset by lower rental costs. Scandic's other costs also include a high share of variable costs where above all, staffing flexibility is important to be able to adapt cost levels to variations in demand. Altogether, this means that by having a flexible cost structure, Scandic can lessen the effects of seasonal and economic fluctuations. On September 30, 2023, Scandic's goodwill and intangible assets amounted to 7,214 million SEK.

This value relates mainly to operations in Sweden, Norway and Finland. A significant downturn in the hotel markets in these countries would affect expected cash flow negatively, and consequently, the value of goodwill and other intangible assets.

After the hotel market began to improve from the summer of 2021, there was a slowdown at the end of the year due to the increased spread of infection and re-introduction of pandemic restrictions. The hotel market improved substantially during 2022 and the third quarter 2023.

SENSITIVITY ANALYSIS

Scandic has a cost structure consisting of variable costs, which are affected by changes in volumes, and costs that are fixed in the short term, which are independent of changes in volume. Costs that are affected by changes in volume largely include sales commissions and other external distribution costs, the cost of goods sold, sales-based rental charges, property-related costs (energy, water, etc.), payroll expenses for hotel employees without guaranteed working hours and the cost of certain services, such as laundry. Costs that are not affected by changes in volume largely consist of payroll expenses for hotel employees with guaranteed working hours, fixed and guaranteed rental costs and costs related to country and Group-wide functions such as sales, marketing, IT and other administrative services.

The operations of Scandic's subsidiaries are mainly local with revenues and expenses in domestic currencies and the Group's internal sales are low. This means that currency exposure due to transactions is limited to the operating profit/loss. Exchange rate effects in the Group arise from the translation of foreign subsidiaries' financial statements into SEK.

CALCULATION OF FAIR VALUE

The fair value of financial instruments is determined by their classification in the hierarchy of actual value. The different levels are defined as follows:

Level 1: Quoted prices for identical assets or liabilities in active markets.

Level 2: Observable data other than quoted prices for assets or liabilities included in Level 1, either directly or indirectly.

Level 3: Data for assets or liabilities not based on observable market data.

The Group's derivative instruments and loans from credit institutions are classified as Level 2. Liabilities to credit institutions are recognized at fair value.

SEGMENT DISCLOSURES

Segments are reported in accordance with IFRS 8 Operating segments. Segment information is reported in the same way as it is analyzed and studied internally by executive decision-makers, mainly the CEO, the Executive Committee and the Board of Directors.

Scandic's main markets in which the Group operates are:

Sweden - Swedish hotels operated under the Scandic brand.

Norway – Norwegian hotels operated under the Scandic brand.

Finland – Finnish hotels operated under the Scandic brand as well as hotels operated under the Hilton, Crowne Plaza and Holiday Inn brands.

Other Europe – hotels operated under the Scandic brand in Denmark, Poland and Germany.

Central functions – Costs for finance, business development, IR, communication, technical development, human resources, branding, marketing, sales, IT and purchasing. These functions support all hotels in the Group including those under lease agreements or under management and franchise agreements.

The division of revenues between segments is based on the location of the business activities and segment disclosures are determined after eliminating intra-Group transactions. Revenues derive from many customers in all segments. The segments are reviewed and analyzed based on adjusted EBITDA.

NOTE 08. Convertible loan

An extraordinary general meeting on April 26, 2021, approved the Board of Directors' proposal to issue a convertible loan, raising 1,609 million SEK in gross proceeds. After 32 million SEK in issue expenses, net proceeds totaled 1,577 million SEK. Of the net proceeds, 1,231 million SEK was allocated to a convertible loan and 346 million SEK to equity. The theoretical effective interest rate, which is charged to profit/loss, is approximately 11 percent and is calculated for the part that has been allocated to the loan. No interest payments are being made during the life of the loan (due October 8, 2024). Instead, the interest expense is accumulated on an ongoing basis to the convertible debt,

which will be 1,800 million SEK when it is due. The conversion rate is 43.36 SEK. When fully converted, the convertibles will result in dilution of approximately 17.83 percent and will increase the number of shares by 41,510,920. In August 2022, 46,123 shares were converted, and the full dilutive effect now amounts to 41,464,787 shares. The calculation of earnings per share includes the full dilutive effect for any periods with profits. For the third quarter and period, the calculation was carried out with the full dilutive effect, as the result for both the quarter and the period was positive.

RECONCILIATIONS

RESULTS INCLUDING & EXCLUDING IFRS 16

EFFECTS OF IFRS 16

Since January 1, 2019, the Group has applied IFRS 16 Leases. The accounting principle means that lease agreements with fixed or minimum rent are recognized in the balance sheet as a right-of-use asset and a lease liability. IFRS 16 has a substantial impact on Scandic's income statement and balance sheet. Since the application of IFRS 16, reported EBITDA has increased significantly as the cost of leases has fallen while depreciation of right-of-use assets and interest expenses for the lease liability has increased. Since Scandic's business model is to lease (rather than own) its hotel properties, IFRS 16 will continue to have a major impact on the company's accounting. To help all investors gain a good understanding of the company's position, Scandic has chosen to present financial key ratios both including and excluding the effects of IFRS 16. Scandic's financial targets for profitability, capital structure and dividends exclude the effect of IFRS 16.

With the portfolio of lease agreements that existed at the end of the period in 2023, net profit after tax for 2023 is expected to be negatively impacted by approximately -504 million SEK (-430). With an unchanged portfolio of lease agreements and unchanged assumptions, the negative effect on results is expected to diminish over time and affect the net result positively from 2029. This is because interest expenses for the lease debt decrease over time as the debt is constantly amortized.

The definition of adjusted EBITDA excludes the effect of IFRS 16. The table below shows the difference between the reported results including and excluding IFRS 16.

AUDITOR'S REVIEW REPORT

Scandic Hotels Group AB (Publ) corporate identity number 556703-1702

INTRODUCTION

We have reviewed the condensed interim financial information (the interim report) of Scandic Hotels Group AB (Publ) as of September 30, 2023, and the three-month period then ended. The Board of Directors and the President & CEO are responsible for the preparation and fair presentation of this interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim financial information based on our review.

SCOPE OF THE REVIEW

We conducted our review in accordance with International Standard on Review Engagements, ISRE 2410, *Review* of *Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted accounting standards. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act for the Group, and in accordance with the Swedish Annual Accounts Act for the Parent Company.
